

Dr. Rome is a primary care physician and health policy researcher at Brigham and Women's Hospital and Harvard Medical School in Boston. He is currently a postdoctoral research fellow in the Program On Regulation, Therapeutics, And Law (PORTAL) within the Division of Pharmacoepidemiology and Pharmacoeconomics. He received his undergraduate degree in community health from Brown University, his medical degree from Harvard Medical School, and trained in internal medicine at Brigham and Women's Hospital. Dr. Rome's academic research focuses on the approval, regulation, use, and cost of prescription drugs. His work has been published in high-impact journals, including JAMA and the New England Journal of Medicine. More information about PORTAL can be found at www.portalresearch.org.
